Presents

Learning to Ride Better Transitions

With Larry Smyth

June 23rd, 2018

Transitions are a sticking point for many riders. Before attempting any transitions you and your horse must be prepared to do it properly. Good transitions will help your horse remain balanced and stay in the same frame with his head, neck, shoulders and back.....

Cost of One Day Clinic: \$155.00

Auditors: \$25.00

Lunch included for students & auditors

Hours: 9am to 4:30pm

The Ups and Downs of Transitions—

Transitions can be a challenge to some riders and their horses

Riding in any form (dressage, trail riding, reining, cow work, drill team maneuvers, etc.) requires the use of transitions. This clinic is designed to help you and your horse get better at those transitions.

Larry Smyth began training horses in 1974 and started training police horses in the 1980's and now trains both riders and horses for mounted police units. A lifetime of riding and training experience provides Larry with the skills and ability to understand what each horse and rider needs to reach the goals they have set for themselves in their equine partnership
